{EPITECH}
📍 Lyon

SUMMARY

Final-year student at Epitech, seeking a new part-time opportunity for 6 months starting in September 2024, 2 days per week. In addition to my expertise in React, NextJs, and Tailwind, I am currently expanding my skills in Node.

EXPERIENCES

Full Stack Developer Intern, Flutter, and Supabase

Piwio

📅 01/2022 - 05/2023   📍 Lyon

Engineering firm specializing in the design and development of connected devices, embedded electronic systems, and web and mobile applications.

- Developed two Flutter applications for managing connected devices.
- Utilized **Supabase** and **PostgreSQL** to store manipulation results in a database.
- Implemented a Dynamic Link Library (DLL) to retrieve information from a Bluetooth sensor.

Frontend Developer Intern, React, and Next.js

Guillaume Noël Consulting

📅 10/2022 - 03/2023   📍 Lyon

IT consultant serving multiple clients. Guillaume, the manager, delegated tasks to me, including the creation of his portfolio.

- Analyzed and significantly improved the performance of a **React** application for a Web + Blockchain game.
- Developed a portfolio using **Next.js**, **Tailwind**, and Tailwind Components, featuring a contact form enabling attachment upload and submission. Deployed via Vercel.

AI Development Intern

VIAPIX Systems

📅 7/2021 - 12/2021   📍 Lyon

Design and integration of road digitization solutions.

- Created a **website** for capturing photos using **HTML**, **CSS**, and **Javascript**.
- Developed a deep learning model for semantic segmentation in Python.
- Implemented an interactive map using Delphi.

SKILLS

Javascript   TypeScript   React

English   Nextjs   HTML

CSS   Supabase   Tailwind

Intégration   Git   GitHub

Python   Vercel   PostgreSQL

PROJECTS

✅ **Checked, a Todo app**
A fully Todo app host on vercel and built With NextJs, Tailwind, Supabase and PostgreSQL. You can take a look here Checkd.online

📄 **Portfolio**
I create my own portfolio, host on vercel, with NextJS, Tailwind and Typescript and I used figma to create the mock up. link

ACHIEVEMENTS

🏆 **Blockchain Starton 2022 Hackathon - 2nd Place**
Frontend React Developer collaborating with backend and blockchain developers.

🎖 **Blockchain 2021 Hackathon - 3rd Place**
Frontend React Developer collaborating with backend and blockchain developers.
